

FIBRE BROADBAND IS HERE

www.superfastworcestershire.com

HAVE YOU GOT IT?

We're building a pioneering, multimillion pound network transforming 95 per cent of Worcestershire's broadband speeds by Autumn 2017. This means that communications providers (companies who supply telephone, broadband and TV services) can deliver high speed fibre broadband to you. There's loads of benefits:

**Whatever you're doing online,
do it faster and more efficiently
with fibre broadband:**

- watch HD movies, catch up with your favourite TV on demand, download music in seconds
- get instant access to shared online workspaces and files
- stay in touch with business contacts, or catch up with friends and family with live video calls
- upload photos and videos to your social networking site in an instant
- fast transfer and back-up of data
- school and educational online tools are accessible in seconds

At home, fibre broadband isn't just about a faster internet experience or about doing one thing quicker. It's about everyone in the house being able to do their own thing online, all at the same time.

For businesses it's the upload speeds that really make a difference. Fibre broadband enables small businesses to work faster and more efficiently, reducing the need to travel. Having faster upload and download speeds also means small businesses can benefit from job creation and business expansion.

Talk to your communications provider about getting superfast broadband, it doesn't cost much to upgrade. Visit our website to see a list of providers and to find out more www.superfastworcestershire.com

GETTING UPGRADED IS EASY

- | | |
|---------------|--|
| Step 1 | Go to www.superfastworcestershire.com and click on 'When and where'. |
| Step 2 | Enter your phone number or post code to confirm you can order fibre broadband. |
| Step 3 | On the website, click on the 'How to get it' link to see the various companies you can buy fibre broadband from. The list is split into providers for business and providers for home users. |
| Step 4 | Click on one of the broadband provider's logos to go to their website so you can check out their deals. |

Of course, if you already have broadband you can simply contact your service provider to ask for an upgrade. It's often a good idea to shop around and you may find your service provider may be able to offer you a good package to retain your custom.
